## DETAILED ACTION

### *Claim Rejections - 35 USC § 101*

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 41-43 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 41 recites "A computer-readable medium storing a computer program executable by a computer, the computer program comprising computer instructions for", followed by a listing of steps, but since original claim 52 defines the computer-readable medium as including "a computer data signal embodied in a carrier wave", i.e. a transmission medium, the claims fail to fall within any of the statutory categories of invention, i.e. the claims are neither a process, machine, manufacture or composition of matter, because the claim merely recites a form of energy.

### *Allowable Subject Matter*

2. Claims 1-3, 10, 12-15, 17-24, 27, 30-32 and 39 are allowed.

### *Conclusion*

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
